# About the game

## Sim Agronomy

is a simulation game, that drives you into the virtual world with the real-life experience of farming!

"**Sim Agronomy**" is a realistic and engaging farming game that takes you on a journey through challenges and rewards of rural life.

The game offers a unique and entertaining experience that takes you to the heart of farming

You'll start with a small plot of land and turn it into a thriving farm through the strategic planting of crops, the raising of livestock, and the efficient management of resources.

As you progress, you'll unlock new tools, equipment, and upgrades, allowing you to expand your farm and increase your profits.

With intuitive controls, and a captivating storyline, the player can live the life of a farmer in the virtual world.

"**Sim Agronomy**" is the perfect game for anyone looking to escape the hustle and bustle of city life and experience the simple joys of farming.

# Uniqueness

An upcoming online simulation game with role playing model with multiplayer accessibility.

A game which makes the players to understand the Agricultural Policies of INDIA.

## Agricultural Policies (undertaken in the game)

To increase the profit from exporting the goods upto 8%.

To increase the export potential for agricultural products to regional and global markets.

# Trajectory

The game starts with a role-playable character as soon as the player creates an account.

The game moves on with the simulation of the life of the role-playable character which is a farmer by default.

The player shall continue the game by leading the life of the farmer in the virtual world.

As days goes on in the game, the life of the playable character flourishes or goes down based on the decisions. of the player.
